Shape Living
for the Better

Electrolux

100 Years and Counting

100 YEARS OF BETTER LIVING

1919 - 2019

For the past 100 years, Electrolux has reinvented what taste, care and wellbeing mean for our consumers. By creating best-in-class consumer experiences for people all around the world, not only have we impacted their lives, but also the communities in which they live.

Take a walk with us through time.

1944

Electrolux purchases Bohus Mekaniska Verkstads AB in Gothenburg. The Group thereby enters into a new product category - washing machines.

1940

The food processor "Assistent" is launched. It is to become one of the Group's biggest sellers.

1957

Changing the name from Elektrolux to Electrolux everywhere.

1959

The first Electrolux dishwasher and the first combined fridge/freezer are launched.

1962

Announcing a new logotype.

1969

A subsidiary is established in Hong Kong to sell the Group's products in the Far East.

1970

Electrolux launches a microwave oven under the name "Microlux".

1984

Electrolux buys the Italian company Zanussi.

1986

The third largest major appliances company in the US, White Consolidated Inc., is acquired and includes brands such as Frigidaire, Gibson, Kelvinator and White Westinghouse.

1999

The launch of an intelligent refrigerator "Screenfridge".

2001

Electrolux puts the world's first self-going robotic vacuum cleaner on the market - the Trilobite.

2004

The first stick vacuum cleaner, the Ergorapido, is launched.

2010

Electrolux launches a range of five green vacuum cleaners made from 55-70% recycled plastics.

2013

The third generation of Ergorapido is launched in Japan, the largest market for the product.

2016

Electrolux announces acquisitions of Kwiko, a leading water-heater company in South Africa, and Australia/Singapore-based company Vintec, which supplies a wide range of climate-controlled wine cabinets.

2017

The new innovative robotic vacuum cleaner, the Pure i9, is launched.

2022

Launch of Experience centers in India

2018

Electrolux and Midea launch the AEG brand in China.

2022

Our Swedish heritage has given us a rich history - one of innovation and entrepreneurship. With our eyes set on the future, we will always strive to be better - in our operations, in the solutions we develop, and in the role we play in society. Ultimately, through the creation of such best-in-class consumer experiences for our consumers, Electrolux will continue to shape living for the better.

"The point isn't the technology in itself. The technology is becoming increasingly secondary to the experience. We no longer talk about how fast the microprocessor in an appliance is, but what it can do for the consumer."

Jonas Samuelson,
President & CEO of Electrolux

1920

The Swedish company Elektro-Helios, acquired by Electrolux in 1962, launches the first electric stove in Sweden.

Manufacturing of vacuum cleaners begins in New Zealand in 1940.

Introduction

Our future is determined by the way we all live our lives. That's why we strive to improve everyday life for millions of people and the world around us. It is embodied in everything we do. In every idea, every product and every human interaction.

We believe that outstanding taste experiences should be easy for everyone. That there is always a better way to care for our clothes to make them look and feel new longer. That the home should be a place for wellbeing, a place to care for ourselves and our loved ones.

To succeed, we continuously rethink and improve our ways of working – internally, and together with our customers and partners.

By creating desirable solutions and great experiences that enrich peoples' daily lives and the health of our planet, we want to be a driving force in defining enjoyable and sustainable living. This is us – at Electrolux we shape living for the better.

Swedish thinking. Better living.

We come from Sweden. A land of extreme contrast, where winter gives us eternal darkness and summer infinite light. It's a unique place to call home. And it's the reason we do things differently. Our climate gives home a new meaning. It's where we escape the long, dark winters, but also where we open every door and window to welcome the summer light. And it's where we care for each other. We have a long tradition of equality, sustainability and the right to express ourselves. We don't own these topics - the world does. But we're proud to be one of the voices that takes them seriously. Every change starts at home. So whatever we do, it'll always be inspired by where we come from.

To deliver distinct and differentiated experiences, Electrolux has three clear innovation areas - Taste, Care & Wellbeing

- Targeted research and development gives us a competitive advantage – optimizing our offering and shortening the time to market.
- Electrolux focuses its research and development on products that provides great consumer experiences such as:
 - Great food with the right **taste** and texture, healthy, fresh and nutritious. Inspired by new culinary techniques, while also reducing food waste.
 - **Care** for clothes so they remain like new for longer, and ready to wear by holding their size and shape, while using minimal water and energy.
 - Healthy **wellbeing** in the home by using appliances with a visual appeal, while creating a healthy environment.

We are a progressive and premium home life brand, making desirable experiences more sustainable. Our fundamental focus is on “Human Centricity” which allows us to offer Accessible, Smart and Appealing Solutions to our customers. While delivering a solution to consumers, we ensure that we deliver it with a holistic view of minimal impact on the environments, directly or indirectly. We preserve the art of translating our Scandinavian with Beautiful and functional designs. This is referred to as “**Beauty with Purpose**”. Our Sustainable solutions are Distinct and Desirable.

Our Offerings

Taste: Food Preparations
(Gas Hobs, Hybrid Hobs, Hoods, Oven, Coffee Maker)

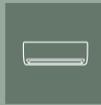

Taste: Food Preservation
(Refrigerator)

Care: Fabric Care
(Washing Machine)

Care: Dish Care (Dishwasher)

Well Being: Air Care
(Air Conditioner, Air Purifier)

Well Being: Floor Care
(Vacuum Cleaner)

Taste

Our Belief

We believe it's time for a taste revolution. By changing the way we source, treat and eat food, we can improve the affects on both our health and our planet. Even small changes in behavior can make a big impact for the better. Because few things are more pleasurable than sharing a delicious meal. That's why we champion those who are passionate about taste and want to cook and enjoy more mindfully.

Human Centricity

We understand everyday life and the tension between eating what is 'best' and what is 'doable'. It has to be effortless and joyful to cook and eat sustainably. Through partnerships and investments, we rethink the entire eco system around food experiences. That way, you don't have to compromise on eating mindfully.

Sustainability

We are committed to the planet. That means having a holistic view on our impact. By innovating and creating circular processes, we reduce both the full life-cycle footprint of our products and our corporate affect on the environment. And by helping you get the most out of ingredients, we enable better health and reduced food waste.

Scandinavian Design

This involves experiences that are designed to harmonize with your kitchen and work seamlessly throughout your food journey, inspiring better choices, while elevating your individual skills. We love creating beauty with purpose. That is why we design for intuitive taste experiences founded in usability and simplicity.

Care

Our Belief

We believe it's time to change how we wear and care for our clothes. We also believe that even small changes in behaviour can have a large impact. That's why we champion those who choose to re-wear, repurpose and rotate their wardrobe.

Human Centricity

We understand everyday life. Caring for your clothes in a sustainable way should be effortless. By making focused investments and utilizing partnerships, we rethink the entire ecosystem for a better overall wardrobe experience.

Sustainability

We are committed to the planet. That means having a holistic view on our direct and indirect impact. By using circular processes and considering the lifetime footprint of our appliances and beyond, we contribute to a better ecosystem and reduce our total impact.

Scandinavian Design

We love creating beauty with purpose. That is why we design intuitive care experiences founded in usability and simplicity. Experiences that are designed to give confidence to new and better behaviours.

Wellbeing

Our Belief

We believe that everyone deserves to come home to a place where they can thrive. Because life lived in a healthy and comfortable home environment significantly improves quality of life. But greater attention to wellbeing in your home should not come at the cost of the wellbeing of our planet.

Human Centricity

We understand everyday life. And that cleaning and conditioning your home should take up as little space as possible, both physically and mentally. We take a holistic approach to make the experience of caring for your home effortless, pleasant and something you never have to worry about.

Sustainability

We show the way by setting new standards for our products, our industry and for society at large. We are radically changing the way we work, taking a circular approach to innovation and redefining how we meet consumer needs. Making the sustainable option irresistible, we lower the barriers for positive action. Thus, we can say that we are committed to the planet, the home and the individual.

Scandinavian Design

Through Scandinavian design we elegantly crafted durable materials which are in harmony with your home and fit seamlessly into your life. Thus, interactions with our given solutions gives you confidence with new and improved behaviors with little effort. We believe in creating beauty with purpose. Thus why we design intuitive solutions that are founded in usability and simplicity.

Cooking Range

Create delicious
tastes, effortlessly

A kitchen that knows what matters

At Electrolux, our philosophy is simple: life in the kitchen should be seamless and intuitive.

That's why we've developed a new range with smart, sustainable features and clean lines for an effortless experience. So, you can concentrate on the things that make you happy: making and sharing great food with the people you love.

**Swedish thinking.
Better living.**

Ovens

Brilliant simplicity

Our **steam function** is the secret to give your dishes juiciness on the inside and crispiness on the outside. Paired with intuitive controls, you can effortlessly grill, bake or roast to perfection.

For delicious taste, just add steam

Our advanced steam functions ensure you cook with just the **right balance of steam and heat**. The added moisture conducts heat faster so you will discover colours are richer, skins are crispier and textures are more tender and juicy.*

Effortless baking

Adding steam to your baking program can lift your baking skills to a whole new level. The **Bake +Steam function** on our new ovens uses a touch of steam to create a richer and glossier colour, a crispier crust and soft delicious texture for your home-baked goodies.

*Selected models

Ovens features

An oven that cleans itself

High temperature pyrolytic cleaning burns away oven grease and grime for easy cleaning, without any need for water or chemicals. Simply set the **pyro program** and wipe the oven clean afterwards. The oven door also has **multiple layers of glazing** to remain cool-to-the-touch, even when pyro cleaning at a very high temperature. A layer of **reflective glass** directs heat back into oven, while an extra layer provides additional heat resistance.

Fry with air, less oil.

The mesh design of the AirFry tray allows super-heated air to crisp the surface of food to deliver that delightful fried taste and texture, with minimal oil.

It's all about timing

Do you sometimes forget to turn off the oven after cooking? Don't worry, set the timer to automatically turn off your oven after cooking for extra peace-of-mind.

Demystify steam cooking

Not sure how to use steam to elevate your cooking results? Steamify makes it easy to create delicious flavours and textures with steam. Select the temperature that you would usually use and the oven automatically adjusts the settings to deliver the right amount of steam to cook your dish in an optimal way. For healthier, tastier results, meet Steamify.

Precise cooking, great results

Whether you're broiling beef or roasting chicken, the smart food probe helps you to achieve delicious results, time after time. By monitoring the core temperature of the food during the cooking process, your meats will be cooked to their succulent best. The precise sensor will even let you know when your dishes have been cooked to the desired temperature and automatically stop the process to prevent food from drying out.

Built-in single oven

KOAAS31X

60 cm Black glass with stainless steel trim

- Stainless steel is stylish and anti-fingerprint.

Gas Hobs

The Electrolux hob range will change the way you cook and let you unleash your creativity to achieve great tasting food.

It empowers the customers to make healthier and more nutritious food without compromising on taste.

Gas Cooktops

Fire it up

Enjoy super-fast heating, precise control and the satisfaction of great dishes, cooked to perfection. The Dual Flame wok control lets you direct heat accurately from simmer to maximum flame.

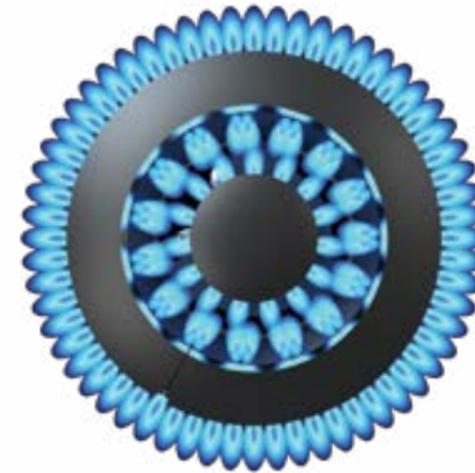

StepFlame

It delivers **precise control to three rings of flame** with stepped settings that click into place as you change the heat intensity. The pre-defined settings guarantee the same flame and heat level every single time, giving you both control and flexibility. This is perfect for a variety of techniques and dishes from delicately melting chocolate in a bain-marie, to gently simmering sauces or stir-frying rice at high temperatures.

FlameShield Trivet

The FlameShield trivet **reduces heat-loss** to deliver more intense heat to the cooking process, for effortlessly perfecting dishes from soups to sauces to stir-fries. The **curved trivet profile** works like cradling a candle with your hands, cupping the flame, and channeling the energy directly onto the bottom of the pan. By directing heat more efficiently, hobs with the FlameShield trivet cook faster and consume less energy than previous models*, helping you to achieve quick, tasty meals, whilst also lowering your energy bills over time.

*Lower gas consumption to bring 2L water to boiling point - comparison vs. previous model EGT9239CKB carried out in internal testing.

Full Brass Burners

It don't only look good, they are also durable. Providing **superior heat retention and even heat distribution** so you can sear, simmer and pan fry with confidence in your kitchen.

Flexi Installation Cut Out

The **smaller lower box** of this cooktop combined with the **extended glass overhang and flexible bracket** makes installation into existing counter cut-outs easy without additional modifications.

Safety shut-off

The **flame failure safety device** automatically cuts off the gas supply if the flame goes out during cooking. This means you can use your appliance at the lowest power without worrying about the flame extinguishing and leaking gas.

Black glass built-in gas hob

EHG9351BC

90cm UltimateTaste 700 built-in gas hob with 3 cooking zones

- Brass burners to sear, simmer and pan fry.
- Blue flame burns efficiently to lower energy cost.
- Flame failure cuts off gas supply for your safety.
- Cast iron supports keep pots and pans stable.
- Durable, easy-to-clean tempered glass surface.
- One hand ignition is simple and convenient.

Hybrid and Induction Hob

Induction technology only heats the area directly beneath the pan, while the surface area around it remains cool. This means that induction hobs are safer and easier to clean than traditional cooktops, as spillages don't burn on. Induction is also faster and more energy efficient, so you can create delicious dishes in less time with less energy.

Sear. Stir-fry. Boil.

The PowerBoost function gives you an intense heat boost when needed, before automatically dropping to the highest power level. Perfect for pan searing fish, stir-frying crunchy vegetables, or bringing water to the boil quickly.

Match the method to your meals

Enjoy the **speed and precision** of induction cooking but also love the performance of gas? With this **versatile combination** of induction zones and a high-power gas burner, you can tailor your cooking technique to your culinary repertoire with ease.

Even frying. Automatically

SenseFry measures heat levels and makes automatic adjustments under the pan to maintain the ideal temperature for even cooking results. Now it's easy for you to whip-up evenly browned pancakes and juicy steaks at home.

Auto pot detection

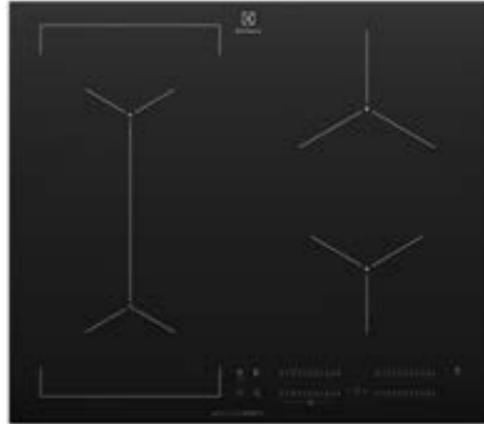

Let the **hob adapt your cooking style**, not the other way around. **Sensors automatically detect** where you place pots on the cooking surface and **illuminate the controls**, making it easy for you to control each specific area.

Built-In Induction Hob

EHI645BE

60cm UltimateTaste 700 built-in Black induction hob with 4 cooking zones

Technical info

Cut-out dimensions (mm)

Rangehoods

Quiet achievers

Designed to work seamlessly with Electrolux cooktops. With their sleek design and powerful motors, they remove cooking odours so efficiently, you'll barely know they're there.

The hands free hood

While you concentrate on the flavours, the innovative **Hob2Hood feature** will take care of keeping your kitchen fresh. The rangehood **automatically turns on** as soon as you start cooking, and **intuitively adjusts the fan speed** with your cooking.*

Easy hood cleaning with heat

Auto HeatClean technology makes cleaning your extractor hood effortless. Activated automatically after 15 hours usage or manually at a press of button, the **hood heats up to melt away grease and grime**, collecting it in an oil cup for easy disposal. This self-cleaning function keeps your extraction hood clear and clean to maintain performance and power.

Let's clear the air

Whether you're frying, searing or steaming, the powerful motor and high extraction speeds clear the air by **efficiently removing cooking vapours and unwanted odours** from your kitchen in minutes.

*Selected models

The quiet achiever

Electrolux hoods with **inverter technology** removes cooking odours from your kitchen more quietly, so that you can focus on cooking delicious dishes in a cleaner and quieter environment. Inverter motors are also more durable and energy efficient than traditional motors.*

*Based on test results in TR000057830A.

Clean air? It's a breeze.

By activating the **BreezeRefresh function** after cooking, your kitchen air will be automatically freshened up hourly. By quietly extracting air for five minutes every hour, your cooking area will be fresh and free from lingering cooking odour the next time you want to prepare a meal.

- Powerful extraction removes unwanted odours fast.
- Control your hood settings with hand gestures.
- Inverter motor is quiet, durable, and efficient.
- BreezeRefresh automatically extracts air hourly.
- 6-speed fan for all cooking intensities.
- Use PowerBoost to remove strong odours.
- Glass touch control panel is easy to use and clean.
- Delay off continues to remove fumes after cooking.

Slope extractor hood

ECS9610K

90cm UltimateTaste 500 slope extractor hood

Technical info

Product dimensions (mm)

1052-1329 (H) x 896 (W) x 382 (D)

Coverage Area (Sqft.)*

440

*Room size is calculated based on the average room height of 10 ft.

Features

- Powerful extraction removes unwanted odours fast.
- 4-speed fan for all cooking intensities.
- Use PowerBoost to remove strong odours.
- Glass touch control panel is easy to use and clean.
- Delay off continues to remove fumes after cooking.
- Centrifugal motor is energy efficient.
- Washable filters are better for the environment.
- LED lighting is bright and energy efficient.

Slope extractor hood

ECS9181G

90cm UltimateTaste 500 slope extractor hood

Technical info

Product dimensions (mm)

830 (H) x 900 (W) x 420 (D)

Coverage Area (Sqft.)*

230

*Room size is calculated based on the average room height of 10 ft.

Features

- Auto HeatClean automatically melts away grease.
- Centrifugal motor is energy efficient.
- Touch control panel is easy to use and clean.
- Easy-to-clean filter system with oil cup.
- LED lighting is bright and energy efficient.

Slope extractor hood

ECS9081G

90cm UltimateTaste 500 slope extractor hood

Technical info

Product dimensions (mm)

730 - 1090 (H) x 900 (W) x 420 (D)

Coverage Area (Sqft.)*

270

*Room size is calculated based on the average room height of 10 ft.

Features

- Centrifugal motor is energy efficient.
- Touch control panel is easy to use and clean.
- LED lighting is bright and energy efficient.
- Washable filters are better for the environment.

Slope extractor hood

ECS9691G

90cm UltimateTaste 500 slope extractor hood

Technical info

Product dimensions (mm)

830 (H) x 900 (W) x 420 (D)

Coverage Area (Sqft.)*

230

*Room size is calculated based on the average room height of 10 ft.

Features

- Auto HeatClean automatically melts away grease.
- Centrifugal motor is energy efficient.
- Touch control panel is easy to use and clean.
- Easy-to-clean filter system with oil cup.
- LED lighting is bright and energy efficient.

Chimney extractor hood

ECT9281G

90cm UltimateTaste 500 chimney extractor hood

Technical info

Product dimensions (mm)

545 (H) x 898 (W) x 505 (D)

Coverage Area (Sqft.)*

230

*Room size is calculated based on the average room height of 10 ft.

Features

- Auto HeatClean automatically melts away grease.
- Centrifugal motor is energy efficient.
- Touch control panel is easy to use and clean.
- Easy-to-clean filter system with oil cup.
- LED lighting is bright and energy efficient.

Chimney extractor hood

ECC9681G

90cm UltimateTaste 500 chimney extractor hood

Technical info

Product dimensions (mm)

599 (H) x 898 (W) x 505 (D)

Coverage Area (Sqft.)*

230

*Room size is calculated based on the average room height of 10 ft

Features

- Auto HeatClean automatically melts away grease.
- Centrifugal motor is energy efficient.
- Touch control panel is easy to use and clean.
- Easy-to-clean filter system with oil cup.
- LED lighting is bright and energy efficient.

Chimney extractor hood

ECT9623B

90cm UltimateTaste 500 chimney extractor hood

Technical info

Product dimensions (mm)

435-815 (H) x 900 (W) x 454 (D)

Coverage Area (Sqft.)*

280

*Room size is calculated based on the average room height of 10 ft

Features

- Centrifugal motor is energy efficient.
- LED lighting is bright and energy efficient.
- Washable filters are better for the environment.

Slope extractor hood

ECS6181G

60cm UltimateTaste 500 slope extractor hood

Technical info

Product dimensions (mm)

830 (H) x 600 (W) x 420 (D)

Coverage Area (Sqft.)*

Features

- Hob2Hood adjusts the hood power automatically.
- 4-speed fan for all cooking intensities.
- Use PowerBoost to remove strong odours.
- Delay off continues to remove fumes after cooking.
- Powerful extraction removes unwanted odours fast.
- Filter indicator for replacement notification.
- Centrifugal motor is energy efficient.

Your coffee, your way

Choose a coffee that suits your taste, whether an espresso shot or a light, subtle blend. With the intuitive UI, the quantity can be adjusted precisely to measure the amount of coffee dispensed, while the aroma selection allows for various coffee intensities ranging from light to intense. This ensures that each cup can be tailored to your personal coffee preferences.

Best served with friends

This coffee machine can **fill two cups at once**. Perfect for when you want to enjoy a delicious coffee with a friend.

Cafe quality coffee at home

For **café-quality cappuccino** whenever you want it, press the cappuccino button. Getting that professional flavour is almost as easy as enjoying the cappuccino itself.

Built-In Coffee Maker

KBC85X

2.5L UltimateTaste 900 stainless steel and black built-in coffee maker 56cm

Technical info

Cut-out dimensions (mm)

450 (H) X 560 (W) X 550 (D)

Product dimensions (mm)

455 (H) X 596 (W) X 361 (D)

Features

- The perfect blend, aroma and amount for you.
- Thermoblock brews perfect tasting espresso.
- Make two coffees at the same time.
- Café-quality cappuccino at home.
- Touch display for control you can count on.
- 15 bar pressure for perfectly authentic espressos.
- Stainless steel is stylish and anti-fingerprint.
- AutoRinse after use helps maintain your machine.

**Food
Preservation -
Refrigerator**
Keep your produce
at its best for longer

A photograph of a modern building with a curved wooden facade and a large wooden deck. The building is surrounded by tall pine trees and a grassy area. The sky is blue with some clouds. The text is overlaid on the right side of the image.

A kitchen that knows what matters.

At Electrolux, our philosophy is simple: life in the kitchen should be seamless and intuitive.

That's why we've developed a new range with smart, sustainable features and clean lines for an effortless experience. So, you can concentrate on the things that make you happy: making and sharing great food with the people you love.

**Swedish thinking.
Better living.**

Refrigeration

Streamlined simplicity

A fridge should be a statement in your kitchen and Electrolux makes sure it's one of the most striking features in your kitchen. Ours are available in dark or natural stainless steel finishes for a seamless and elegant look.

Stylish and smart

High quality, **mark-resistant real stainless steel**, now available in a new chic dark hue or classic bright stainless steel, lends a touch of class to any kitchen. Inside, the generous interior marries innovation and style in equal measure.

Fresh fruit and veg, all week

TasteLockAuto maintains a humid environment to keep fruit and vegetables fresh and bursting with flavour for up to 7 days.* A membrane automatically releases excess moisture to reduce condensation and stop your produce from spoiling early.

The complete cooling solution

The **TasteSealFlex convertible compartment** easily adapts to the temperature you need, giving you the freedom to store everything from fresh vegetables, to tender meat and fish, or cold drinks and ice-cream. You can always find the right space to keep your food fresh and full of flavour by choosing one of the five temperature settings from -23°C to 7°C .

Optimal cooling, optimal taste

TwinTech Cooling consists of two independent cooling systems that work together to keep your fridge functioning at its best, every day. One system keeps your freezer chilled, while the other controls the refrigerator to keep temperature and humidity levels stable.

French door features

Intuitive door design

With optimally **split doors** you have more usable space in your refrigerator door and can effortlessly reach for larger items, saving you the need to open both doors every time.

Fresh is best

Our **innovative TasteLock crispers** automatically control the humidity levels to keep your fruit and vegetables at their best for longer. While **Easy-glide crisper drawers** open effortlessly, even when they're full.

Thirst-quencher

Like a cool glass of pure, filtered water on cubed, or crushed ice? Your fridge is there to deliver, **any time of the day or night** - at the touch of a button. And you'll find the compact ice maker makes hot summer days or dinner parties a breeze.

Smart on space

The thoughtful **Slide-back** and **Flip-up** shelving means you can store that two-tiered birthday cake for the big moment, no problem.

SnackZone

The SnackZone is the **ideal compartment** for keeping those smaller ingredients separate for **easy access** such as fruit for your morning smoothie allowing you to be prepared before the week begins.

Heart of the home

Whether its fresh produce, drinks, or frozen food, our refrigerators have space for everything.

680L Glossy Dark Grey Stainless Steel French Door Refrigerator

Fabric Care

Keep your favourites
looking newer longer

The right amount of care

A laundry that knows what matters. At Electrolux, our philosophy is simple: the laundry should be seamless and intuitive. That's why our design team have developed it's new range with smart, sustainable features and clean lines for an effortless experience. So you can focus on the things that make you happy.

**Swedish thinking.
Better living.**

Fabric Care

Goodbye Detergent Residues

UltraMix technology thoroughly dissolves detergent, so no visible residue remains on your clothes.

Clean with added hygiene

The **HygienicCare** option finishes the wash cycle with a **soft spray of vapour** to remove up to 99.9% of allergens and germs.* HygienicCare produces vapour at just 40°C, so it is gentler on your fabrics, whilst also saving energy.

50% More efficient

The **EcoInverter** motor reduces vibration to deliver quiet, reliable performance with up to **50% lower energy consumption** compared to traditional models**. Plus it's guaranteed for 10 years.

*Electrolux front load washers with Vapour / Hygienic Care option remove up to 99.2% of Der f1 (dust mite) and Fel d1 (cat allergen) and upto 99.9% of Staphylococcus aureus and Klebsiella pneumonia during a 40°C cottons wash.

**50% lower energy consumption EWF8024BDWA vs. previous model EWF8025EQWA

Make your clothes last

Looking after your clothes is effortless, with Electrolux. Our washers come with a range of smart features that keep your favourites looking their best, for longer.

Washer

Features

No more wrinkles

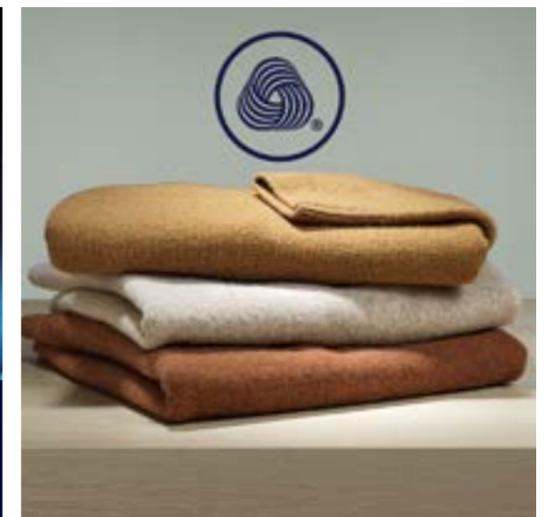

Vapour not only reduces wrinkles, it also eradicates up to **99% of allergens and germs** for a clean that's more than just superficial.

Hand it to us

You can safely trust your washer to treat your delicate wool garments with utmost care. Our **woolmark certified cycle** is proven to be gentle even your hand wash only woollens, keeping them as fresh and lovely as they felt when you first put them on.

Fit more in

Just back from a big trip? The new, **extra-large door** opening makes for seamless loading or unloading of your laundry.

Washer Dryers

Wash, dried and cared for in one go

You'll love the efficiency and performance of our washer-dryer range. Using the latest technology, they'll wash, then perfectly drying your clothes – without compromising on stunning results. Saving you time in your busy day.

Dry in clean air

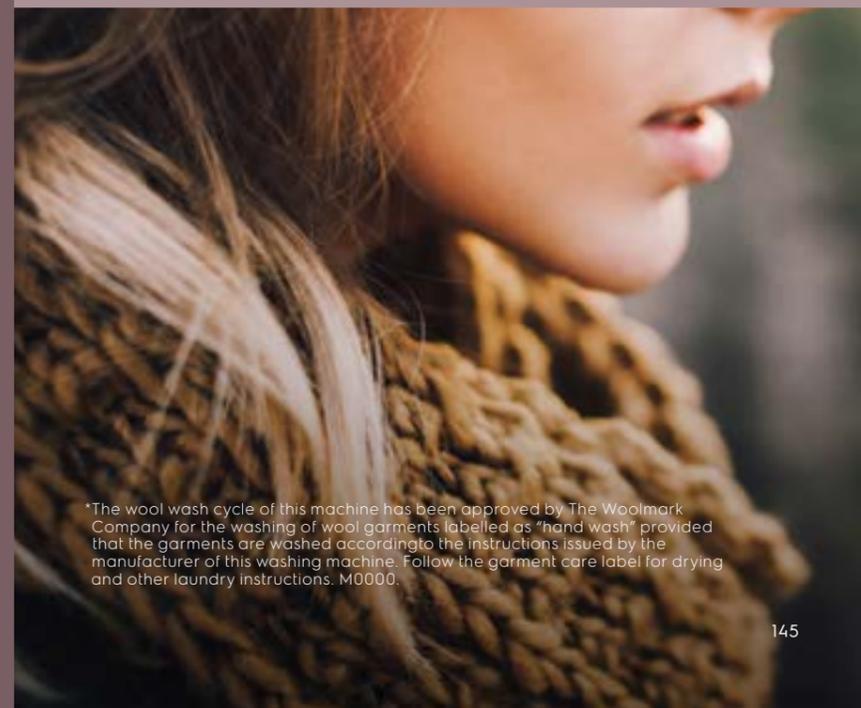

The **automatic wash to dry** program keeps your clothes away from polluted outdoor air to ensure that **sensitive skin stays safe**. Thus they will be as clean after drying as they were after washing.

As gentle as handwashing*

Confidently wash your most precious woollen garments, even when the label says "hand-wash only". Our dedicated **wool cycle combines low temperatures with very low spin speeds** and is certified by **Woolmark** to be as gentle on woollens as hand-washing.

Care for your wardrobe

Cottons, delicates, white, or colours, Electrolux washers gives you the **flexibility to adapt the cycle temperature** depending on the fabric type. Select from **6 temperature settings** to ensure that all your fabrics are washed with the right level of care.

*The wool wash cycle of this machine has been approved by The Woolmark Company for the washing of wool garments labelled as "hand wash" provided that the garments are washed according to the instructions issued by the manufacturer of this washing machine. Follow the garment care label for drying and other laundry instructions. M0000.

9/6 kg Washer Dryer

850 (H) x 600 (W) x 537 (D)
Hoses not included.

Features

- HygienicCare removes 99.9% allergens and germs by releasing vapour at 40° C.
- EcoInverter motor uses 50% less energy.
- Set quick cycles to suit your schedule.
- Adjust temperatures to care for different fabrics.
- Add clothes up to 15 mins after the cycle starts.
- Wash to Dry keeps clothes away from air pollution.

Dryers

Delicate care

Electrolux dryers adjust temperatures and motion for precise care. So you can relax, knowing you never have to worry about your favourite t-shirt or pants coming out a size too small, ever again.

Electrolux Venting Dryers are more energy efficient than condenser Dryers.

1/3 Less wrinkles*

Alternating drum movements prevent clothes from tangling, reduces wrinkles by up to one third compared to hang drying* to make ironing quick and easy.

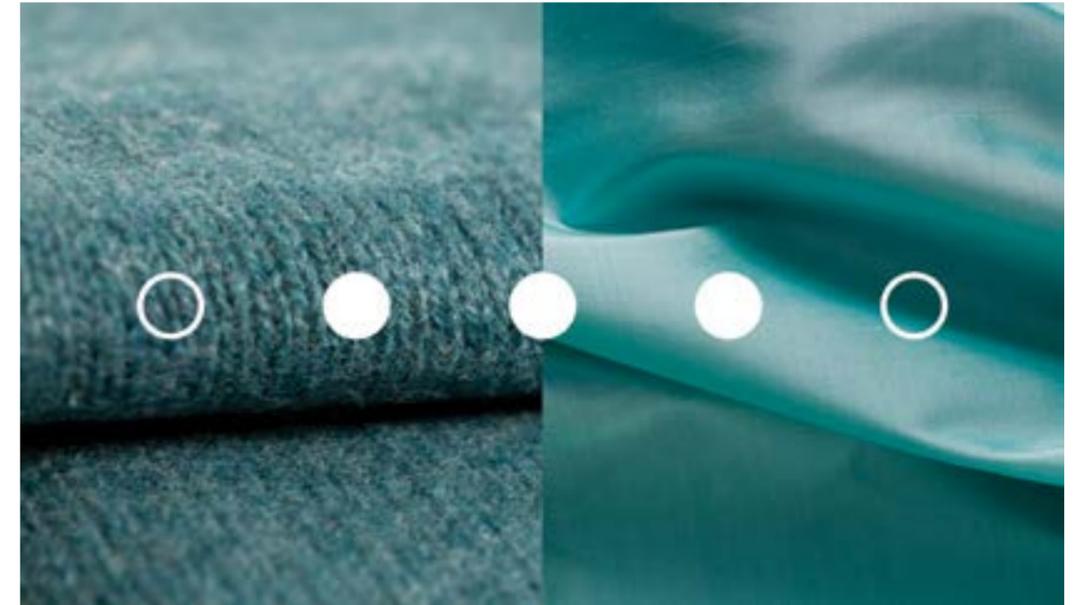

Intelligent cycles

Sensors measure the **dryness of clothes** during the cycle, **adjusting drying times** to reduce wear and tear.

Save time with fast cycles

Select the **30 minute timed cycle** to dry everyday fabrics, cotton or blended fabrics that need to be dried quickly. This program **dries your smaller loads within 30 minutes**, for those times you just need to get things done quickly.

*32% less wrinkles vs. hang drying - tested and certified by THTI

Comparisons

80% Less fading

Keep your colours vibrant for longer by trusting them to **UltimateCare** dryers. Reds stay rich and blacks stay black with up to **80% less colour fading** compared to sun drying*.

Perfect Pairing

The complete care solution

Pair UltimateCare washers and dryers for a complete fabric care solution. Technologies work in harmony to deeply clean and gently care from your clothes from wash through to dry. **Seamlessly aligned design** means you can install side by side or use a stacking kit to secure the dryer above the washer. **UltimateCare, ultimate flexibility.**

*80% less colour fading vs. sun drying - tested and certified by UL

8.5 kg Venting Dryer

Dishwasher Range

Maximum coverage,
maximum clean

Dishwashing made easy

At Electrolux, we aim at redefining your dishwashing experience through our dishwasher range that comes with advanced features such as extra power, satellite clean, spray zone and glass care. With three-times better cleaning performance, you don't need to pre-soak your heavily soiled dishes.

**Swedish intuition.
Better comfort.**

Dishwashing

Clean with ExtraHygiene

The ExtraHygiene function gives you **maximum cleaning performance** with hygienic care. With the ExtraHygiene function, the final rinse phase heats up to above 60°C and keeps the temperature high for minimum 10 minutes to sanitize your dishes, removing more than 99.99% of bacteria and viruses.*

Make room for more

The MaxiFlex drawer **accommodates everything** from spoons to spatulas. From multiple cutlery sets to over-sized utensils, the flexible dividers mean you can customise the drawer according to the load. Flatware is kept separate from larger items and the added depth increases the capacity for each cycle.

Improve washing results

The **ExtraPower** option improves the cleaning results of selected wash programs by adding a boost in temperature to remove stubborn stains from your kitchenware.

Clean machines

Our range of quiet, fuss-free dishwashers offer superb results – sparkling dishes, ergonomic stacking and swift cycles, keeping your favourite dishware beautifully clean.

All corners reached

The **SprayZone** function intensively cleans your cookware, with three-times better cleaning performance compared to our standard program. You don't need to pre-soak your heavily soiled dishes. The powerful water pressure brilliantly cleans everything placed within the dedicated space, every time.

Up to 3X better drying**

AirDry technology finishes each cycle with a breath of fresh air, performing three-times better than closed-door systems. The door automatically opens 10 cms towards the end of the drying phase, without you lifting a finger. This allows air to circulate inside, leaving plates and cutlery completely dry and spotless at the end of the cycle, whilst also saving energy.

*Tested for Micrococcus luteus and MS2 bacteriophage in external test performed by Swissatest Testmaterialien AG in 2021 (Test Report No. 20212029).

**Compared with our closed system.

SatelliteClean

Max coverage-max clean

SatelliteClean shoots **multiple jets of water** into every corner of the dishwasher to ensure every item is thoroughly cleaned. The **double rotation movement** continuously changes the angle of the water jets to ensure maximum coverage, delivering outstanding cleaning results.

SatelliteClean reaches all items with water jets.

Freestanding Dishwasher

ESZ69300SX

60cm UltimateCare 700 freestanding dishwasher with 15 place settings

Technical info

Product dimensions (mm)

850 (H) x 598 (W) x 603 (D)

Features

- MaxiFlex drawer space can be adapted to the load.
- SprayZone uses high pressure for flawless results.
- SoftGrips and SoftSpikes delicately hold glasses.
- SatelliteClean reaches all items with water jets.
- ExtraPower option improves wash performance.
- Delay start of the program to suit your schedule.
- Adjustable upper basket makes room for more.
- MachineCare removes limescale and grease build-up.

Aircare

A healthier home
to thrive in

Love the way you live

Wellbeing. It's that contented state being in a comfortable, clean, and healthy home, and your wellbeing is at the heart of the Electrolux philosophy. Our products are designed to fit seamlessly into your home while enhancing your life, from the air you breathe to the joy of a hot shower, and floors that feel luxuriously clean underfoot. Aesthetically pleasing forms follow effortless function creating products that you'll enjoy using every day.

Swedish thinking.
Better living.

Air Conditioners

Fresher, cleaner air

Control your indoor climate simply and intuitively with sustainable air conditioners designed to also care about energy efficiency and the environment.

A cool, healthier home

The efficient filtration system reduces up to 99.8% of harmful bacteria* to keep your home air healthier. The **4-stage filtration** (with plasma filter) consists of a dust filter (nylon), antibacterial filter and PM2.5 filter, to ensure your air is as clean as it is cool. The efficient filtration system is capable of filtering PM particles size PM0.3, PM2.5 to ensure that you are always living in cleaner, fresher and healthier air.

*Klebsiella pneumonia, E.Coli, Staphylococcus albus, tested by external independent laboratory, 2022.

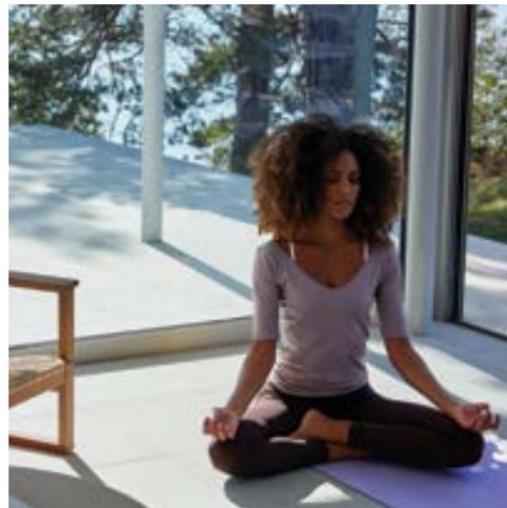

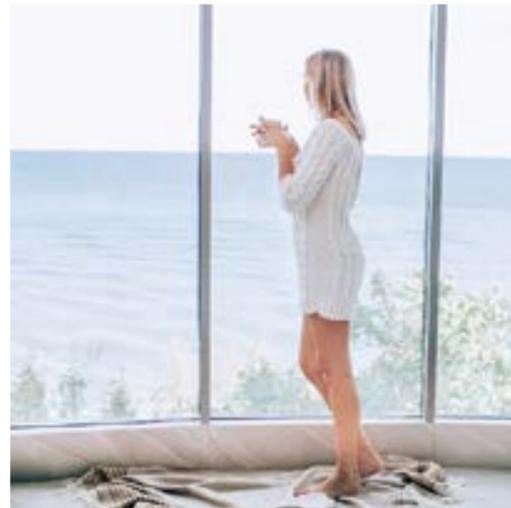

Your ideal air, automatically

Keep **I-Feel close** and you'll always feel cool. Simply select your ideal settings and your air conditioner will automatically adjust whenever the I-Feel remote-control sensor is in the same room. The I-feel function runs your air conditioner at a **faster speed** until it reaches your desired temperature, before returning to normal speed.

A healthy home

More than keeping your home at the perfect temperature, Electrolux air conditioners' filtration technology also purifies and freshens, surrounding you with healthier and cleaner air.

Air Conditioners features

Optimal comfort, every corner

The **360° cooling** function, which combines vertical and horizontal auto swing, generates directed airflow from the air conditioner to maintain a consistent temperature across the room. That lets the air conditioner distribute air uniformly throughout any room, delivering 360° of even airflow to reduce hot and cold spots in the space to provide optimal comfort.

Use only what's required

The **convertible function** is designed to help you only use the cooling capacity that is required based on your needs. You are able to change the speed of the compressor based on the number of people at home or the temperature outside, helping you to save energy. Good for the environment and good for reducing your power bills.

Air Conditioners features

Added protection from corrosion

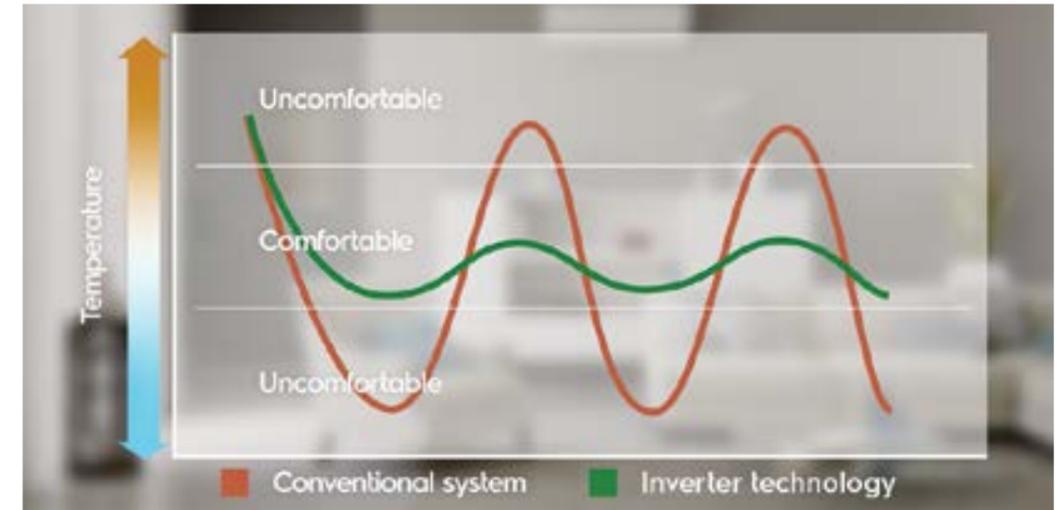

BlueTech Shield provides added protection against corrosion, compared with other surface treatments, to give you a longer lasting performance from your air conditioner.

A greener machine

R32 refrigerant generates no ozone depletion so is more environmentally friendly than traditional refrigerants.

Let's go steady

Inverter technology keeps temperatures stable, whilst also being quieter and more energy efficient.

Air Purifiers

Filters Air, Removes Bacteria

Five stage purification solution, includes PureProtect to neutralise up to **99.99%** of trapped airborne, bacteria*, up to **99.9%** of **H1N1** virus** and filters **ultrafine particles as small as 0.003 microns*****. It helps reduce airborne **SARS-CoV-2 virus**. Lab results showed removed up to **99.99%****** of the live virus.

*Tested to GB 21551.2-2010 Appendix B for bacteria Escherichia coli & Staphylococcus aureus**H1N1 Influenza virus tested to ISO18184-2019 for viruses A/PR8/34 H1N1 & HCoV-229E*** Up to 99.9% filtration on airborne particles as small as 3 nm based on the external test results according to ISO 16880****Results from bio safety lab MRI Global indicate effective removal up to 99.99% of the live SARS-CoV-2 virus from a 0.37m*** test chamber. Not proven to kill SARS-CoV-2 or reduce or prevent transmission. Should be used in conjunction with other prevention methods. Test chamber results do not translate to unsealed or larger room sizes

Easy on your ears

When used in **Sleep Mode** the sound from this air purifier is barely noticeable. Even when running at maximum speed, the noise level comparable to a regular conversation at home*.

*Measured 1m away in front of the product. Model number PA91-406.

Complete air quality

An advanced five-step air purification enables the capture of up to 99.98% of particles as small as **3 nm** (0.003 microns) in size* and up to 92% of **common Volatile Organic Compounds (VOCs)****. It reduces up to 99.99% of bacteria*** and 99% of H1N1**** virus and effectively reduces **human coronavirus** known as **HCov-229E******* for even cleaner and healthier air at home.

*Based on tests conducted by GTT Laboratory in Nov 2020 according to GB/T 14295-2008 standard

**Based on tests conducted by Azure Wind in Nov 2020 according to GB/T 18801-2015 standard

***Tested for Legionella pneumophila, Escherichia coli, Staphylococcus aureus and Serratia marcescens

****Tested for H1N1 influenza virus

*****Tested by Guangdong Detection Center of Microbiology, Test report #2021FM03107R01D, according to ISO standard

So portable. So adaptable.

So **lightweight** it can be carried with one hand by its handle, the unit can stand on the floor on its two legs, or easily be wall mounted to save floor space and facilitate cleaning. A choice of **fabric covers**, by world-renowned Danish textile manufacturer, Kvadrat, allow **customization*** to various interior design styles and personal tastes.

*Customized accessories sold separately.

Air Purifiers

features

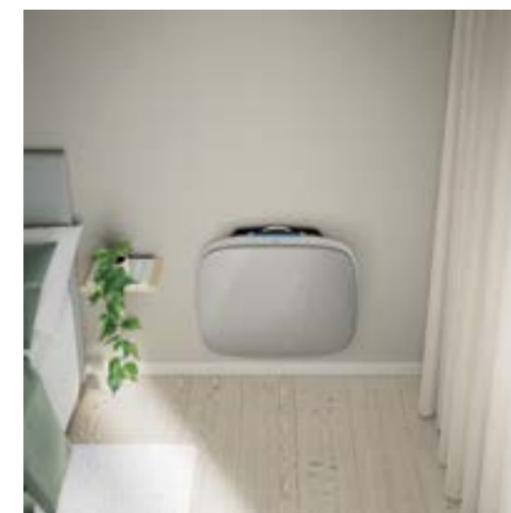

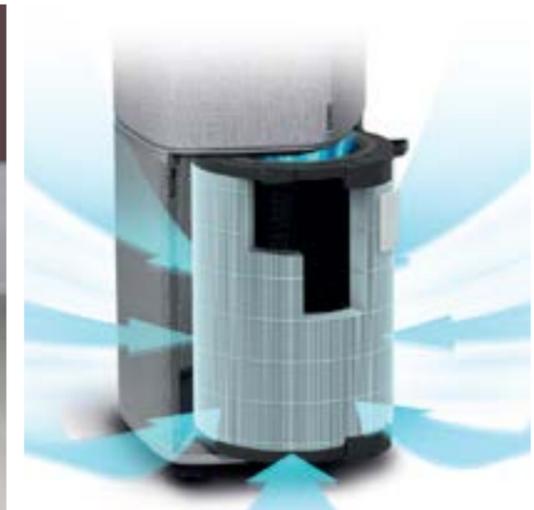

Your air quality assistant

Whether you're at home or on the go, monitor and optimise your indoor air quality using our **connected app**. You can automatically start the air purification process, check progress, and easily adjust your preferences remotely. Simply sit back, relax and let your air purifier do the rest.

A breath of fresh air

A spiral outlet creates a robust whirl to efficiently circulate filtered air throughout a room without any uncomfortable drafts*

* Based on Japan's JEM 1467 regulations of air changes per hour. Room size with a CADR for smoke of 415 m³ / hour and with the upward motion you can be close without being disturbed from the airflow.

Floorcare
A healthier home
to thrive in

Love the way you live

Wellbeing. It's that contented state being in a comfortable, clean, and healthy home, and your wellbeing is at the heart of the Electrolux philosophy. Our products are designed to fit seamlessly into your home while enhancing your life, from the air you breathe to the joy of a hot shower, and floors that feel luxuriously clean underfoot. Aesthetically pleasing forms follow effortless function creating products that you'll enjoy using every day.

Swedish thinking.
Better living.

Floor Care

The right vacuum cleaner for you

Many people believe that an efficient vacuum cleaner is measured by a vacuum's voltage or power. The real performance of a vacuum cleaner is measured by dust pick-up. Creating effective dust pick-up is a matter of generating enough suction power. This is an optimal combination of vacuum and airflow in the nozzle with high airspeed around the particles to be picked up. It's key to remember that an efficient vacuum cleaner consists of 5 good factors: tube/hose, motor, separator/filter system, suction power, and air speed.

Wet & Dry features

One vacuum, three functions

Enjoy the **powerful performance and efficiency of a 3-in-1 cleaner** that features the unique versatility of wet, dry and blow functions in one vacuum.

Accessories stored on board

All accessories are conveniently stored on board the vacuum cleaner for efficient, easy access.

Clean, filtered exhaust air

The **microfilter** ensures the exhaust air entering your home is clean, dust free, and odourless.

High performance suction power

High performance, **powerful suction** with a **1600w motor** ensures outstanding cleaning results.

Wet and dry vacuum cleaner

Technical info

Features

Z931

1600W Flexio Power Copper wet and dry vacuum cleaner

Product Dimensions (mm)

500 (H) x 437 (W) x 383 (D)

- 3-in-1 vacuum with wet, dry and blow functions.
- Accessories stored on board for efficient, easy access.
- Microfilter for clean exhaust air in your home.
- High suction performance with 1600w motor power

Canister (bagged & bagless) features

An efficient, powerful clean

The **PowerPro System** combines a powerful motor with an optimised floor nozzle to deliver outstanding vacuuming results.

All-floor deep dust pick up

The optimised **DustPro nozzle** ensures powerful dust pick up on all floor types to give carpets and hard flooring a deep and thorough clean.

Wrap-around protective bumper

The **ErgoShock bumper** wraps around the vacuum to protect your walls, skirting boards and furniture from scuffing as you clean.

Effortless 360° handling

360° motion technology allows the small wheels to turn full circle for **maximum manoeuvrability** and effortless handling.

180° Access system

180° Access System is designed for **easy opening, and to allow fast**, full access to the dustbag and filter.

Bagged Canister Vacuum Cleaner

Technical info

Features

ZSP2320T
2000W SilentPerformer Chilli red canister vacuum cleaner

Product Dimensions (mm)
441 (H) x 293 (W) x 238 (D)

- PowerPro motor and nozzle for outstanding results.
- DustPro nozzle for powerful all-floor dust pick up.
- ErgoShock bumper protects furniture and walls.
- 360° motion technology for maximum manoeuvrability.
- 180° Access System for quick, easy opening.

Bagless Canister Vacuum Cleaner

Technical info

Features

PC91-5STM
1400W Pure C9 Space teal metallic canister vacuum cleaner

Product Dimensions (mm)
437 (H) x 296 (W) x 308 (D)

- Sealed filtration system re-emits clean air into your home.
- Outstanding cleaning performance for longer.
- Simple, hygienic emptying and easy maintenance
- Easy-roll wheels and smooth, precise handling.
- Exclusive lifetime filter will never need replacing.

Cordless features

Easy Access and flexibility*

With **Grab & Go** and **Roll in Roll out** features allows access to a **quick or urgent cleaning** solution with minimal to no assembly required. Ergonomically designed, from self-standing, optimal device weight distribution, to **smooth steering nozzles** to ensure an easy and comfortable clean.

Versatile and Convenient Clean

Experience the ultimate combination of function and flexibility. Engineered to be versatile, the **detachable 2-in-1 unit** and **multi-purpose nozzles** enable cleaning from small to large or hard to reach surfaces. Accessories and attachments are also conveniently stored for easy access and adaptation to varying areas.

Hygiene and Filtration*

Delivering technology that ensures true hygienic surface and surrounding with **BrushRollClean™**, **Wet mopping**, **UV** and **Pet nozzles**. Vacuums are integrated with **advance filtration** that ensures that dusts are contained to enjoy a healthier, cleaner home environment.

Powerful and uninterrupted cleaning*

Cyclonic system separates dirt from air, which enables the vacuum to maintain full suction performance throughout the entire clean even as the dust bin fills up. Selected models comes with **interchangeable backup battery** in the charging station, while you while you vacuum with the other.

Handstick vacuum cleaner
